Dun's Trade Review.

Dun's Trade Review.

NEW YORK. Aug. 6.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

Every important development of the week confirms the revival of trade, which has no vital obstacle to oppose now that the turiff bill has become a law. A keener literation in the law in the trainers is manifested in the iron and steel market each succeeding week. Higher totals of pig iron production and other evidences of rapid expansion appear. Numerous inquiries have been received for orders running into 1910, but little actual business has been done, as sellers in many instances name figures above the views of consumers. The expected advance on plates and shapes was announced, the ruling prices now being \$1.40 at Plitsburg. The market for hides and leather is still unsettled, owing to price readjustments to the new tariff bill admitting hides free of duty. Foreign hides have advanced 10 per cent or more and domestic hides have declined less than 5 per cent.

The leather market continues very dull.

A fairly active inquiry is reported for October shipments of prunes from the coast. Spot prices range from 2ic to 11ic for California and from 6c to 5c for Oregon fult.

Apricots quiet and steady, choice, 10% 10ic; extra choice, 10% 10ic; fancy, 11 6c 13c.

BUSINESS IS QUIET ON PRODUCE MARKET

Plenty of Good Things to Eat, but the Demand Is Very Light.

Bradstreet's Review.

Bradstreet's Review.

NEW YORK, Aug. 6.—Bradstreets tomorrow will say:
With the advent of August the new
tariff has become an accomplished fact,
the leading crops are assuming more tangible form, with some tempering of
carlier exuberant estimates; high premiums on old supplies of farm products
are disappearing and the usual fall buyers' excursions are bringing purchasers
to leading markets. There is also noted
this year what was absent for two preceding years—a growing scarcity of labor.
That the general business situation is
essentially sound is also evidenced by
the comprehensively small number of
business suspensions and the lightest
monthly fallure liabilities witnessed for 3
years past. On the other hand there are
features of the trade and industrial situation not as yet clearly defined. High raw
material cost makes for caution in placing orders in some lines of cotton goods,
and the advance in the prices of some
lines of finished from and steel is claimed
to have discouraged some New York business. As yet the high cost of wool and
the finished goods has not seemed to affect demand in that line, but hides are
easier, claimed to be due to the tariff
changes.
